

HARDTECH STARTUP SAFARI BERLIN

Dedicated tours, pitches and insights into the Berlin Startup ecosystem for corporate and SMEs.

AT A GLANCE

Our Hardtech Startup Safari for corporates offers you deep insights into new technologies, collaborative working culture in a makerspace, and the chance to meet future-driven companies such as NeoCarbon and Lite+Fog who work in the fields of IoT, AI, and new materials.

HOW IT WORKS

You can choose one of our standard packages or we design a MotionLab.Berlin ecosystem tour for you.

1250 €

3 hour

OUR GUESTS

PERSONALIZED INNOVATION TOURS

Higher productivity, smart products, new work processes and business models. Technologies such as AI, IoT, robotics and new material will play a key role for companies and our society. But who will invent these technologies? Corporations, SMEs or startups? Together we design 1-5 day sessions with you to tackle your current challenges and ideas in hands-on sessions.

WORKSHOPS

Experience innovation in your own company! Learn about the latest innovation methods to overcome challenges and create new solutions. Our workshops bring together agile work and hardware technology development.

IoT TALENTS

Get to know the IoT talents from our boot camps. Secure up-and-coming professionals before your competitors. Additionally you are part of a selected group of innovative partners in our program.

IoT GAME

You will experience what constitutes the successful use of AI and sensors in a practical and playful way. The business game format achieves a lightweight, simple approach to complex topics and their fields of application.

TRAVELS

Experience the stars of the local hardtech startup scene. Founders and managers share their very own perspectives and thus provide an insight into the development of their vision - from the first idea to game-changing technologies.

For whom are our tours

Our tours are for SMEs and corporates with a focus on technology and physical products.

Our innovation manager develops a deep understanding of your goals and designs a customized workshop format with you.

We work with strong partners who can help you beyond the workshops.
